Summary

IT undergraduate skilled in C++, Python, and full-stack web development with experience building database-driven applications and responsive web interfaces. Completed multiple projects using MySQL, HTML, CSS, and JavaScript, focusing on scalable design and clean architecture.

Technical Skills

- Languages: C, C++, Python, JavaScript.
- Web Technologies: Bootstrap, Tailwind CSS,HTML,CSS.
- Database: MySQL,SQL.
- Tools Platforms: Jupyter Notebook, Visual Studio Code (VS Code), Notepad++,Git, GitHub.
- Concepts: Data Structures Algorithms, OOP, DBMS
- Operating Systems: Windows, Linux (Basic)

Education

Arya College of Engineering and IT Jaipur, Rajasthan Bachelor of Technology (B.Tech) in Information Technology	2022 – 2026
New Rajasthan Public Sr Sec School Completed Senior Secondary School With 73.60 Percent	2022
Prince Shikshan Sansthan Sr Sec School Completed Secondary School With 79 Percent	2020

Project

Online Examination System

- Designed and developed a web-based examination platform with role-based access for admin and students.
- Implemented secure authentication, timed tests, and automated evaluation of MCQ-based exams.
- Designed a relational database schema for users, exams, questions, and results. features like random question selection, auto-submit, and result analytics.
- Applied OOP principles and modular programming to improve system scalability and maintainability.

Chat Application

- Built a real-time messaging system with authentication and session management.
- Implemented one-to-one chat with a responsive user interface using HTML, CSS, and JavaScript.
- Applied programming concepts from C++ for logic building, problem-solving, and performance optimization.
- Improved performance by optimizing message handling logic.

Certificates

Fundamentals of Salesforce and Internship - [Salesforce]
Schema Design Anti Patterns-[Mongo DB]
Oracle Fusion Cloud Applications-[Oracle]
